

**SCHOLARSHIP PROGRAMME
TO STUDY REFRIGERATION & AIR CONDITIONING**

**OZONE PROGRAMME
NATIONAL OZONE UNIT
DEPARTMENT OF THE ENVIRONMENT
MINISTRY OF NATURAL RESOURCES AND THE ENVIRONMENT**

1ST OCTOBER, 2008

A Refrigeration and Air conditioning Scholarship Programme was established and current being implemented in which funding from the TPMP was used to help finance the training of new technicians at the Institute for Technical and Vocational Education & Training in Belize. Thirteen Belizean students from Belize City and Orange Walk Town were awarded full scholarships to study refrigeration and air conditioning.

The scholarship is for one calendar year (12 months) only, and covers Workshop/Laboratory Fee, Trainee Insurance, Testing & Certification Fee, Support Subjects Booklets, Tools and Tuition. The following tools were provide to each scholarship recipient: 1 small tubing cutter, 1 screw driver set, 1 pliers, 1 safety goggle, 1 manifold gauge set, 1 amprobe, and nut driver set or (5/6" & 1/4" nut driver).

Seven students of ITVET in Orange Walk Town were award full scholarships to study refrigeration and air conditioning. The students are:

- Keenan Walter Tillett
- Alberto Vladimir Vasquez
- Luke Andrew Williams
- Henry William Cawich
- Sergio Luis Gilharry
- Guyon Grattan Gaynair
- Gerson Trujeque.

Six students of ITVET in Belize City were award full scholarships to study refrigeration and air conditioning. The students are:

- Aaron Fuentes
- Aaron Lizama
- Shandelpaul Garcia
- Joshua Ross
- Gregory Myvett
- Michaelangelo Ah

The scholarship programme will prepare and train technicians to practice good refrigeration skills and at the same time protect the environment.
